This accessible and engaging book covers the full span of Serbia's history, from the sixth-century Slav migrations up to the present day. Dejan Djokić draws out several common themes, including: migrations; the Serbs' relations with neighboring empires and peoples; Serbia as a society formed in the imperial borderlands; and the polycentricity of Serbia. The volume also highlights the surprising vitality of Serb identity, and how it has survived in different incarnations over the centuries through reinvention.
